PROFESSIONAL SUMMARY

QA Engineer with hands-on experience in manual testing, REST API testing, web application testing, and test automation through an internship at STQC Directorate (Ministry of Electronics & IT). Experienced in designing and executing functional, regression, exploratory, and integration test cases, documenting defects, validating bug fixes, and maintaining structured test documentation. Hands-on experience with Postman, Playwright, pytest, Python, SQL, JIRA, Git, and Agile/STLC practices, with additional exposure to application and API security testing.

PROFESSIONAL EXPERIENCE

Software Quality & Security Intern

New Delhi, India

STQC Directorate (Ministry of Electronics & IT, Government of India)

Feb 2026 – Aug 2026

- Executed structured test plans across 120+ REST API endpoints and web applications, performing functional, regression, exploratory, and integration testing while documenting defects, test results, and observations.
- Validated REST APIs using Postman and Burp Suite by verifying request and response payloads, authentication and authorization behaviour, HTTP status codes, negative scenarios, and API security requirements.
- Identified functional gaps, UI inconsistencies, configuration issues, and security vulnerabilities; documented findings with clear reproduction steps and contributed to formal technical reports and quality documentation.
- Collaborated with developers, technical mentors, and cross-functional teams to investigate issues, validate bug fixes, expand test coverage, and support regression testing throughout the testing lifecycle.

PROJECTS & TECHNICAL EXPERIENCE

Web Application Test Automation | *Playwright, pytest, Python* | [GitHub](#)

- Designed and maintained a Playwright + pytest automation framework for a multi-tenant web application, alongside comprehensive manual test suites covering positive, negative, functional, regression, and exploratory scenarios following STLC practices.
- Developed reusable automated test scripts using reliable locators, assertions, waits, and structured test data to improve regression testing efficiency, test coverage, maintainability, and consistency.
- Identified and resolved flaky test scenarios through systematic debugging and root cause analysis while maintaining structured test execution reports and defect documentation.

REST API Testing & End-to-End Validation | *Postman, FastAPI, Flask, SQL* | [LLM](#) / [QuickKart](#)

- Designed and executed REST API test cases covering endpoint validation, request and response verification, HTTP status codes, authentication and authorization behaviour, negative testing, and SQL-based backend validation.
- Performed functional, regression, exploratory, and end-to-end testing across web and API components while documenting defects, verifying bug fixes, and collaborating with developers during retesting.
- Validated application workflows and data consistency across frontend, API, and backend components to verify expected functionality and release readiness.

TECHNICAL SKILLS

Manual Testing: Functional Testing, Regression Testing, Exploratory Testing, Integration Testing, Test Case Design, Test Execution, Defect Reporting, Bug Tracking, End-to-End Testing

Automation Testing: Playwright, pytest, Python, Test Automation Frameworks

API Testing: REST APIs, Postman, Endpoint Validation, Request/Response Verification, HTTP Status Codes, Authentication Testing, Authorization Testing, Negative Testing

QA Processes: STLC, SDLC, Test Planning, Test Documentation, Test Coverage, Defect Lifecycle, Severity & Priority Classification, Agile/Scrum

Programming & Databases: Python, SQL (Joins, Aggregates, Data Validation), Object-Oriented Programming (OOP)

Tools: JIRA, Git/GitHub, GitHub Actions, VS Code, Burp Suite

Web Technologies: HTTP, HTML5, CSS3

CERTIFICATIONS

Software Testing
Software Quality Assurance and Testing
IBM Generative AI for Cybersecurity Professionals

NPTEL / IIT Kharagpur
Board Infinity / Coursera
IBM / Coursera

EDUCATION

MIT World Peace University

Pune, India

Master of Computer Applications (MCA)

2024 – 2026

Tula's Institute

Dehradun, India

Bachelor of Computer Applications (BCA)

2020 – 2023
